Step aboard Concorde and embark upon an exciting flight through history. The stunning centrepiece of the visit will be **Concorde Alpha Foxtrot**: the last of the iconic supersonic passenger jets to be built and the last to fly.

Visit the Aerospace galleries - 100 years of Aviation History. Find out how a small, pioneering company manufactured some of the earliest aeroplanes at Filton, evolved over the decades to influence the course of aviation history and shaped the world we see today. With hundreds of exhibits from small model aircrafts to helicopters, rockets and missiles.

We will visit a local pub for lunch after the visit. (Additional cost)
